

35/1383 single-organism catabolic process

25/784 nucleoside triphosphate metabolic process

29/1038 organic cyclic compound catabolic process

11/646 macromolecule catabolic process

27/567 translation

1/32 cytoplasmic translation

2/123 photosynthesis, light harvesting

12/429 generation of precursor metabolites and energy

6/277 photosynthesis

3/162 protein-chromophore linkage

4/130 carbohydrate transport

1/62 protein ADP-ribosylation
